**August 4 * Introduction to Auricular Diagnosis and Treatment
Rev. Michelle Rally**

Did you know that your ears can be used to diagnose and treat physical problems, functional problems, emotional and mental problems the body may be experiencing? Auricular Medicine is a combination practice of Eastern and Western medicine. It is a scientific medical system and an alternative and naturopathic medicine. It is the combined practices of clinical diagnosis and therapeutic treatment. Learn how you can treat symptoms by pressing on certain areas of your ears that correspond to areas of your body.

August 11 * Reflexology—Pastor Karen Bock

Reflexology can be used to help restore and maintain the body's natural equilibrium. This gentle therapy encourages the body to work naturally to restore its own healthy balance.

August 18 * Gratitude & Forgiveness—Rev. Vita Balsino

To truly appreciate and be grateful for everyone and everything that we have in our lives, we need to understand what forgiveness means and take the first step of letting go of the hurts and anger that hold us back from the harmonious life that we want to live. The **Forgiveness Formula** that we will explore in this class will help to let all the hurt and anger go. You will be surprised how good it feels and how letting go will change your future.

August 25 * Table Tipping—Tamara Education Committee
